

A Classroom for Every Student: Supporting Disabilities in an Inclusive Classroom

As students with learning disabilities are more frequently supported in the general education environment, it is becoming more important for educators to be knowledgeable about how to best meet their educational needs. This Professional Development will cover strategies to accommodate diverse learners and create a classroom that celebrates difference as a learning opportunity.

Course Objectives:

- Understanding the language of accommodations and how they shape the learning environment
- Strategies to support students with:
 - ADHD
 - Dyslexia
 - Auditory Processing Disorder
 - Dyscalculia
 - Dyspraxia
